

Indian Institute of Information Technology, Allahabad

भारतीय सूचना प्रौद्योगिकी संस्थान, इलाहाबाद

Alumni Webinar Talk Series #17

Date: 21 March 2026

Time: 11:00 AM – 12:15 Noon (IST)

Organized by: Office of Dean Alumni & External Relations, IIIT Allahabad, Prayagraj

Biodata of the Speaker

Mr. Ashish Agarwal

(IIITA Alumnus, B.Tech. IT – 2001 Batch, Enrollment No. 2001114)

Topic of Talk: “Beyond Coding: Building a Career in Applied AI”

Ashish Agarwal

Co-Founder & Chief Technology Officer, Eudia

Professional Profile

Ashish Agarwal is the Co-Founder and Chief Technology Officer of Eudia, an enterprise AI platform transforming how legal teams operate. He is an accomplished AI and technology leader with over two decades of experience and has held key engineering and leadership roles across major technology companies including Google, Amazon, Apple, IBM, and leading AI startups.

Professional Experience

At Amazon, Ashish helped shape Alexa’s AI capabilities, including conversational AI, speech technologies, and natural language understanding.

At Apple, he worked on secure local search infrastructure powering services such as Maps, Siri, and Safari for hundreds of millions of users worldwide.

At Cresta, he led teams building real-time AI assistance for chat and voice platforms, leveraging technologies such as semantic matching, neural ranking, and large language models.

Research & Innovation

Ashish has published several research papers and holds patents in artificial intelligence and related technologies.

Education

He holds a Master’s degree in Computer Science (Artificial Intelligence and Computer Vision) from ETH Zurich. He was an Alumni Guest of Honour under the Entrepreneur category at the Global Alumni Meet 2025 held at IIIT Allahabad (26–28 September 2025).
